

I strongly oppose any amendment that would allow the a third party to contact me at my private residence. Since Attorney General Steve Carter implemented the "no call" list in Indiana, our family is no longer constantly answering solicitation calls. The fact that we can enjoy dinner, without interruption, has been a wonderful change. We hope that you will consider the privacy of private citizens and affirm Attorney General Carter's decision to put our privacy first. Thank you for your time and consideration.

Sincerely,

Jason L. Shute
